Oak Medical Arts

Oak Medical Arts is an innovative health clinic model that integrates various health professions including: walk-in clinic, pharmacy, chiropractic, massage therapy, footcare, liver health, and harm reduction. Operated and owned by local health professionals, the clinics are positioned to provide tailored patient care to the communities they serve.

Autonomy and Collaboration

Our philosophy is that each health professional has a core competency in their trained therapeutic area. Specifically, each team member is able to apply their knowledge, experience, and training to meet our shared patient needs. This means collaborating with treatment plans, asking for second opinions from one another, referring care on to our team, and truly working as a cohesive team.

Overhead Model

The overhead model provides as excellent approach for both yourself and Oak. New to experienced providers have the flexibility and time to build or establish their practice, while receiving the benefits of a full clinic team. As the practices of the other health professional partners continues to grow, so too will your practice by proximity and referrals.

The overhead model is inclusive for all clinic operations: rent, heating, water, hydro, stationary, telephone line, fax line, internet, basic amenities. This also includes administrative support and marketing support.

Administrative Support

- direct billing for health services to ministry/WSIB/third-party benefits
- handling cash paying customers [debit/credit/cash]
- scheduling and booking clients
- shared EMR system
- medical supplies, stationary, room preparation

Marketing Support

- clinic displays for services and programming
- shared marketing campaigns for Oak [mail outs, radio, etc]
- road side sign advertising
- development of communication & promotional material [business cards, programs, etc]

Our Mission

Our mission is to ensure that clients receive all the care they need through a commitment to a friendly and holistic approach with positive health results that improve lives. We work to embody and support all that is symbolized by the Oak - wisdom, strength and life itself.

Our Vision

Our vision is of a wise and strong community that is full of life, helping individuals and families stay healthy one day at a time.

Our Values

Kindness: Oak Medical Arts believes that a warm and welcoming approach is the key to the delivery of health services that respect and empower each individual.

Strength: We work with our clients to help them stay strong and healthy while building their independence.

Wisdom: The latest and most established medical expertise is the tool that equips our care practitioners with the ability to improve health outcomes for the members of our community.

Life: Improved health outcomes are the reason we do what we do. Every service we provide to our clients is a step towards a better quality of life.

Collaboration: We believe collaboration is key to helping our clients stay healthy while earning their respect and trust.

Personal Message

I am confident to say our team is on the leading edge of healthcare, driving change, evolving medical practice, and putting a positive dent in the world of medicine.

This team promises growth.

This position promises change, for the better.

This experience promises opportunity.

We look forward to hearing from you.

Regards,
